New Product Press Release

BlueSet™ – Wireless Headset Interface

JK Audio introduces the BlueSet™ series of intercom headset adapters using Bluetooth Wireless Technology. These headset interfaces plug directly into most Party-Line (PL) TW belt packs, replacing the wired headset.

A switch selects between connection to a 3rd party Bluetooth headset (master mode), or a cell phone (headset mode).

A 3.5 mm stereo headset jack contains a mic level output signal suitable for recording, with the headphone signal on the left channel, and the Bluetooth return signal on the right.

Headset Connect:

Pair BlueSet to your Bluetooth headset. Leave your belt pack on the desk as you walk around the room. Some Bluetooth headsets allow you to switch between two phones, or in this case, switch between your intercom and your cell phone.

Phone Connect:

Pair BlueSet to your cell phone to extend your system around the world. The belt pack Mic/Talk button controls audio from the cell phone into the intercom system.

Intercom Headset Compatibility:

Female and Male XLR four and five pin versions available:

BlueSet-F4, BlueSet-F5, BlueSet-M4, BlueSet-M5

Battery: Internal Lithium-Ion Polymer rechargeable battery yields >10 hour talk time.

Range: 33 feet (10 meters)

Power: 120-240 VAC power supply (included).

Size: 1.1" x 4.4" (2.8 cm x 11.2 cm)

Weight: 5 ounces

Available through authorized dealers May 2010.
